

InWent

Capacity Building International

InWent – Capacity Building International, Germany, is a non-profit organisation with worldwide operations dedicated to human resource development, advanced training, and dialogue. Our capacity building programmes are directed at experts and executives from politics, administration, the business community, and civil society.

Our Programmes

60 percent of all our programmes are implemented at the request of the Federal Ministry for Economic Cooperation and Development (BMZ). In addition, we conduct programmes for other German federal ministries and international organisations. We are also working in cooperation with the German business sector in public private partnership projects that can be designed to incorporate economic, social, and environmental goals.

The programmes for people from developing, transition and industrialised countries are tailored to meet the specific needs of our partners. We offer practice-oriented advanced education and training, dialogue sessions, and e-Learning courses. After the training programmes, our participants continue their dialogue with each other and with InWent via active alumni networks.

By offering exchange programmes and arranging scholarship programmes, InWent also provides young people from Germany with the opportunity to gain professional experience abroad.

Our Offices

InWent gGmbH is headquartered in Bonn. In addition, InWent maintains fourteen regional centres throughout the German federal states, providing convenient points of contact for all regions. Our foreign operations in Beijing, Cairo, Hanoi, Kiev, Lima, Managua, Manila, Moscow, New Delhi, Pretoria, São Paulo, and Dar es Salaam are usually affiliated with other organisations of German Development Cooperation.

After the successful implementation of the InWent project “Efficient Water Management and Reuse of Wastewater in the MEDA Countries” (2004-2007) under the EU-MEDA project “Regional Programme for Local Water Management”, environment and water management continue to be the focus of InWent’s cooperation with Jordan.

Training courses and seminars held in 2008 within the framework of cross-national programmes in the MENA region offer numerous participants from Jordan an opportunity for further training in the sectors of water (“Reform of the Water Sector MENA”), vocational education (“Sustainable Technology Cooperation”) and the environment .

The ILT (International Leadership Training) “Reforming the Water Sector in the MENA Region” (2005-2008) for instance, with its module format including e-learning, a stay in Germany and transfer projects, aims at developing integrated water resource management systems in the region with the objective of adapting technologies for the supply and disposal of drinking water to suit local conditions. The institutional, judicial and rule-of-law framework conditions also need restructuring to promote reforms in the MENA region. InWent provides the necessary expert and methodological skills and encourages regional cross-national cooperation.

An essential aspect in implementing and spreading the competences acquired in this program is the setting up of regional networks, which is to be furthered by the new programme “Further Training in Water Networks” through regional dialogue and strategic human resource development.

More new programmes are scheduled to begin in 2009 in the fields of vocational training (“ICT in Vocational Training”) and sustainable economic reforms.

In addition, the International Institute for Journalism (IIJ) is offering a programme for Jordanian economic journalists with various courses on Economic and Financial Reporting. In order to promote the networking of regional think tanks close to the governments, the existing cooperation between InWent and the Egyptian IDSC is to be opened to Jordanian institutions as well.

Cooperation Partners

Jordan

- Ministry of Water Resources and Irrigation
- NC-HRD National Centre for Human Resource Development
- VTC Vocational Training Corporation
- Arab Countries Water Utility Association
- Arab Water Academy
- International
 - GTZ
 - KfW
 - WBI
